## **New, A. O. Smith ProMax<sup>®</sup> ENERGY STAR<sup>®</sup> Power Direct Vent Gas Product Line**

We are pleased to announce the launch of the complete new line of A. O. Smith ProMax ENERGY STAR Power Direct Vent water heaters.

Now in production, the new product line includes 40, 50, and 75 gallon models based on the Power Vent product platform. Like the Power Vent models, all of the new Power Direct Vent products are ENERGY STAR qualified, including the 75G model, with Energy Factors (EF) up to 0.71. All models are available for both natural gas and propane

Other features of these new models include:

- Exclusive blower with front-mounted junction box
- Energy Factors up to 0.71
- Hot-surface ignition
- 120V electronic gas control
- Sealed combustion system – no FV sensor
- Certified for ABS, PVC, CPVC and PP (polypropylene) vent material
- Vent lengths up to 125 equivalent feet with 3" diameter venting (180 equivalent feet with 4" diameter venting)

Information on our new line of Power Direct Vent water heaters, including the specification sheet and installation manual, is available online at [www.hotwater.com](http://www.hotwater.com).

Please do not hesitate to contact me or your A. O. Smith Sales Representative with any questions or for further details.

Sincerely,

*Patricia S. Kirchner*
