### **New, A. O. Smith ProMax<sup>®</sup> ENERGY STAR<sup>®</sup> Power Vent Gas Product Line**

We are pleased to announce the launch the complete new line of A. O. Smith ProMax ENERGY STAR Power Vent water heaters.

In January, we introduced the new, 40 and 50-gallon short power vent models. Now available for immediate order, the complete product line including the 40 and 50-gallon tall and the high-input 50 and 75-gallon models. All models are ENERGY STAR qualified and feature an Energy Factor (EF) of 0.70 (75-gallon model excluded - 0.68 EF). All models are available for both natural gas and propane and are built on a newly designed Power Vent product platform. This new platform utilizes the latest blower, gas control and ignition system technologies.

Other features of these new models include:

- Exclusive 3-position (9, 12, and 3 o'clock) rotatable blower with front-mounted junction box
- Hot-surface ignition
- 120V electronic gas control
- Certified for ABS, PVC, and PP (polypropylene) vent material
- Vent lengths up to 125 equivalent feet with 3" diameter venting (180 equivalent feet with 4" diameter venting)

Information on our new line of Power Vent water heaters, including the specification sheet and installation manual, is available online at [www.hotwater.com](http://www.hotwater.com).

Please do not hesitate to contact me or your A. O. Smith Sales Representative with any questions or for further details.

Sincerely,

*Patricia S. Kirchner*
