### Updated A. O. Smith ProMax<sup>®</sup> 75G Power Vent and Power Direct Vent Gas Models

We are pleased to announce the launch of the new 75G A. O. Smith ProMax Power Vent and Power Direct Vent water heaters.

Now in production, the new GPVX 75L 210/211 (PV) and GPDV 75L 210/211 (PDV) models are now rated at 76,000 BTU, while maintaining the product dimensions and installation capabilities of the previous 72,000 BTU models. The new PV and PDV models have a Thermal Efficiency of 81% and are available for both natural gas and propane.

The new models continue to offer:

- Exclusive blower with front-mounted junction box
- Hot-surface ignition
- 120V electronic gas control
- Sealed combustion system on PDV models
- Certified for ABS, PVC, CPVC and PP (polypropylene) vent material
- Vent lengths up to 125 equivalent feet with 4" diameter venting

Information on our Power Vent and Power Direct Vent product lines with the new 75G models, including the specification sheet and installation manual, is available online at [www.hotwater.com](http://www.hotwater.com).

Please do not hesitate to contact me or your A. O. Smith Sales Representative with any questions or for further details.

Sincerely,

*Patricia S. Kirchner*
