Line Extension to our Energy Star® Qualified Heat Pump Water Heaters

A. O. Smith introduces a value heat pump water heater line to compliment the new HPTU line (see product notification AOSXE84006 for details). The FHPT-50, FHPT-66, and FHPT-80 models come with a 6 year limited warranty and provide a heat pump solution for customers who want high efficiency, but do not require market leading performance or dual voltage capabilities.

Model (click for details)	Gallon Capacity	Energy Factor (Hybrid Mode)	Annual Cost of Operation*	1 st Hour Rating (Gal) (Hybrid Mode)
FHPT-50	50	2.75	\$192	67.5
FHPT-66	66	2.74	\$192	81
FHPT-80	80	2.72	\$194	90

*In Hybrid Mode, using DOE EnergyGuide test at national average electric cost of \$0.12 per kWh

Other key features include:

- Energy Star® qualified – eligible for many state and local utility incentives, making payback even quicker
- Quietest heat pump water heaters on the market, operating at just 51dBa
- Easy to use electronic interface, controlling set point and operating modes designed to match efficiency with hot water needs
- Money saving vacation mode, programmable up to 99 days
- 240 VAC 60Hz
- 6 year limited tank and parts warranty

The new FHPT-50, FHPT-66, and FHPT-80 heat pump specification sheet, installation manual, and price slip sheets are attached but can also be found online at hotwater.com.

Should you have any questions, please feel free to consult your A. O. Smith Sales Representative or contact me.

Sincerely,
